

Anatomy of a Badge

The Badge Label

The top right hand corner of the badge signifies what type of badge the wearer has been assigned. For example, “WB” indicates that the badge assigned is a “Whole Body” badge.

The wearer’s name or “Spare” appears underneath the type of badge

The Account # is the same on all badges. It is The Ohio State University’s account number with the vendor.

The Location number on the badge is the same as the Series ID number. Be sure to include the Series ID# on all emails and forms as all badges are assigned to a specific series and enables us to assist you more efficiently.

The wearer number identifies whom the badge is worn by. Please be sure to include it on all forms and not the QRL number.

The wear date indicates the specific dates the badge should be worn.
