

Safety Brief

ENVIRONMENTAL HEALTH AND SAFETY

Share the Road

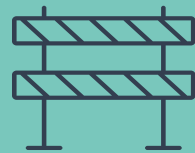

With the upcoming school year rapidly approaching students, faculty, and staff are making their way back to campus. We all have places to go and people to see, but safety should be our top priority. Be mindful as you share the road that campus will get busy when classes are in full swing!

Go the designated speed limit and be aware of pedestrians, scooters, and cyclists and avoid any other distractions.

Be aware of increased motorized scooter users across campus, stay in a predictable line and adhere to par.

Parts of campus will be under construction, so make accommodations to your commute & take caution when construction workers are present.

Plan out your commute, leave in a timely manner to avoid rushing and disobeying traffic laws.

Bikes may use the full lane, but be sure to ride in a predictable straight line and be sure dismount to walk on sidewalks.

Remember to use the designated crosswalks and be sure to not walk in between parked cars.
