

# Safety Brief

Walking the line: Pedestrian Safety in Construction Zones

Campus pedestrians can stay safe around construction zones by staying alert and following posted signs and barriers. It is essential to stay aware of your surroundings. Adhere to these safety guidelines to help ensure a safer environment for everyone on campus.

## **Avoid Distractions**

Avoid distractions like wearing headphones or operating a mobile device when walking around construction zones to stay alert and aware of your surroundings.

## **Avoid Shortcuts**

Areas near construction zones can have hidden hazards such as uneven surfaces. Always use designated pathways to prevent accidents and ensure your safety.
