

AGENDA

RIGGING CLASS - Participants will receive a certificate of attendance (must attend all 4 hours). Limited seating.

	Ballroom	Clinton Rm	Rigging Class - Franklin Rm
7 a.m. to 2 p.m.	Registration • Lobby		
8 a.m. to 8:15 a.m.	Welcome & Continental Breakfast • Ballroom Kristin Poldemann - Associate Vice President, Facilities Operations and Development, The Ohio State University Larry Johnson - Columbus Area Director, OSHA		
8:15 a.m. to 9:30 a.m.	Keynote Speaker John W. Drebinger Jr, C.Ht., CSP "Safety for Effective Leaders - Empowering People to Work Safely"		
9:40 a.m. to 10:40 a.m.	EFFECTIVE COMMUNICATION SKILLS FOR SAFETY LEADERS John Drebinger Communication is not complete until the desired result is achieved. As a safety leader, you do not want to see anyone injured in the workplace. The challenge is communicating this information effectively at safety meetings. John will take you beyond just teaching safety to developing new effective communication skills that will help you reach employees immediately to realize new levels of success.	MENTAL HEALTH & ADDICTION: ARE YOU ADDRESSING IT IN YOUR WORKPLACE? Rick Gehlbach (OhioHealth) This training focuses on trends in safety-sensitive workplaces with regard to addiction and the links to employees' mental health needs. Learn warning signs of mental health and addiction symptoms and ways to initiate productive dialogue with employees to proactively address this worsening trend.	RIGGING CLASS - PART 1 Hours 1 & 2 of 4-hour class. Collins Cranmer CHST, NCCCO Ed Hammond CHST, CSS, CDT, NCCCO Fundamental to any training program is the need to make it dynamic. Teaching something as critical to safety as rigging and signaling requires trainers to find ways in the classroom to simulate real-world experiences and receive confirmation of understanding. Learn how two local safety professionals approach the topic of rigging and signaling. Attend this four-hour class to watch simulations, participate in case studies, and test your knowledge "live" through electronic testing. Using scaled rigging equipment, you will learn the importance of providing a variety of learning techniques to increase the competency of employees while you pick up some knowledge in an area that impacts so many areas of construction.
10:50 a.m. to 11:50 a.m.	OSHA PROGRAMS - WHAT'S NEW Charles Shelton (Cleveland OSHA), Larry Johnson, Melissa Linton (Columbus OSHA) OSHA will provide an update and answer questions about OSHA initiatives, emphasis programs, and OSHA regulations.	PERSONAL PROTECTIVE EQUIPMENT ADVANCES Daniel Braker and Barry Gullickson (3M) Learn about the latest industry advances in personal protective equipment. Keep safety your top priority.	
Noon to 1 p.m.	Lunch • Ballroom Conversation with OSHA Ohio Area Directors		
1:10 p.m. to 2:10 p.m.	TRENCHING SAFETY - 1926 SUBPART P (EXCAVATIONS) Greg First (Conie Construction) Greg will share basic elements surrounding trench safety and a personal experience with an Ohio 2016 trench fatality.	GENERATIONAL SAFETY CULTURE Kelsey Kohler (Ohio CAT), Johel Woodliff (Messer Construction), Mary Logan So (Igel & Co.), Fred Bothwell (Speer Mechanical, ret.) Join the discussion with safety professionals about how the overall safety culture has changed throughout the years, what has worked and what hasn't when trying to change a culture, and more.	RIGGING CLASS - PART 2 Hours 3 & 4 of 4-hour class (see above).
2:20 p.m. to 3:20 p.m.	HOW TO HANDLE WORKPLACE ACCIDENTS Douglas Suter, Esq. (Taft Stettinius & Hollister) Learn what to do in the event of a fatality or accident on the job, including media response, interacting with OSHA, investigations, incident reporting, and more.	CRANE SAFETY & LIFT PLANS Collins Cranmer CHST, NCCCO Ed Hammond CHST, CSS, CDT, NCCCO You only need to see the Columbus skyline to recognize how much growth the city is experiencing. In the city and the suburbs, crane activity is on the rise. Learn from two NCCCO Lift Directors how to ensure your crane picks are safe, from the moment you survey the area, plan the crane size, and develop a lift plan that sets the tone for a successful project.	
3:30 p.m.	Wrap-up and Raffle (must be present to win) • Ballroom Have a safe trip home.		#safeallday

Bonus Sessions - Online

Links, good for 30 days, will be emailed to attendees after the event. If you don't receive the links, please email oshaosusafetyday@gmail.com.

LEADING SAFETY METRICS - MEASURE BY ACCOMPLISHMENT
Cary Usrey (SafetyStratus)
 Safety and health performance are traditionally measured by lagging indicators that rely on injury and illness statistics. Unlike processes such as production, safety is consistently measured by failure instead of accomplishment. A new approach - focused on tracking safety and health performance through leading metrics and tying these back to lagging metrics - is needed. But what leading indicators should you examine? Learn about a safety leading indicator process that will drive continuous safety improvement.

SO YOU HAVE A CLAIM - NOW WHAT?
Stacy Harrington (Ohio BWC)
 As a safety professional, claim prevention is key. But when a claim does occur, there are things you need to know to help your company manage it appropriately. This presentation will provide an overview of the BWC claim process, recommended policies, claims management strategies, ratemaking, and BWC rebate programs.

SAFETY AND HEALTH SERVICES FOR OHIO EMPLOYERS
Ranzy Brown (OSHA On-Site Consultation Program)
 An overview of no-cost safety and health services available to Ohio employers through BWC's Division of Safety and Hygiene.

AVOID STKY SITUATIONS - LET'S TALK ABOUT THE SH*T THAT KILLS YOU
Keith Snead (Limbach Company)
 We have been taught that a lot of minor injuries will result in major injuries, and a few major injuries will result in a fatality. Learn how SIFs (Serious Injuries or Fatalities) can be defined, categorized, and controlled. You can be exposed, successful, and lucky ... or you can be prepared!

After-Event SURVEY
