

Section I:

We, the three persons identified in Section IV of this document, hereby acknowledge the limitations set forth by both Title 10, Code of Federal Regulations (10CFR) and the *Radiation Safety Standards for The Ohio State University* regarding the use of radioactive materials, and resultant exposure for persons under age 18. Specifically, we have read and understand:

- A) *Radiation Safety Standards for The Ohio State University*, Section 6.1.13.
- B) OAC chapter 3701:1-38-12 paragraphs (A) and (G).

Supervisor, please complete **either** Section II **or** Section III.

Section II: The minor will be handling radioactive material pursuant to the following work:

A.	Project title	
B.	Radionuclides	
C.	Chemical Forms	
D.	Frequency of Use (e.g. μCi/month)	
E.	Location(s) of Use (building and room number)	

Section III: The minor will be frequenting laboratories posted for the use of radioactive material, but will not be handling any radioactive material.

A.	Location of Posted Lab(s) (building and room number)	
B.	Radionuclides used in posted lab(s)	

Section IV:

Minor's Name (please print or type)	Minor's Signature	Date Signed
Parent's/Guardian's Name	Parent's/Guardian's Signature	Date Signed
Supervisor's Name	Supervisor's Signature	Date Signed

Return completed, original form to: Environmental Health and Safety
(Keep copies for your records). Radiation Safety
1314 Kinnear Rd, Room 210
Columbus, OH 43212-1168

Overview

The RS-14 is a single page form, in 4 sections, to be completed by the approved supervisor and signed by the minor, the minor's parent(s) or approved legal guardian(s), and approved supervisor. The RS-14 becomes part of the supervisor's approved application. The approved supervisor is responsible for notifying RSS, in writing, when a minor begins or ceases work, in the posted laboratory(s).

Completing the Form

Section I

All signatories to the RS-14 must read section I and the references contained within. If there are any questions about any of the material contained or referenced within section I, please contact the RSS at 292-1284.

Section II or III

Supervisor: Complete either section II OR section III as indicated, but do not complete both. If completing section II, where the minor will be handling RAM, you are reminded the minor cannot begin work until they have participated in the on-line OSU Radiation Safety Short Course and received in-lab training from you. List only the radionuclides and chemical forms the minor will be handling directly. Further, if urine or thyroid bioassays are required, you are responsible for assuring an exit bioassay is completed. Complete the remainder of section II as indicated.

Section IV

Supervisor: Assure the signatures are dated and circle either the "parent" or the "guardian" choice under the second name and signature line. Make 3 copies, one for the minor, one for the parent or guardian, and one for your records. Return the original form to the address indicated on the form.
